

HikCentral Professional V2.6.0 (PE)

HikCentral Professional is a software platform provided by Hikvision for integrating and managing security systems. It is designed to meet a variety of security challenges on a single platform. With HikCentral Professional, you can manage multiple individual systems with ease, such as video security, access control, security alarms, and more, as well as explore cross-system functionalities, permanent license. Daily operations become more efficient while protection of people and property improve all around. Users of all kinds are making smarter decisions.

Key Feature

Light and Efficient

- Lightweight architecture features reduced consumption of system resources
- Capable of managing multiple systems of varying sizes with consistent efficiency

Unified and Flexible

- Supports combining various application plug-ins under a unified, on-demand architecture for collaboration across business segments
- New plug-ins can be continuously developed to meet new business needs

Integrated and Open

- Compatible with virtually all Hikvision products and their abundance of applications, including deep-learning-based analytics and statistics
- Supports Security mechanisms, HTTPS, FIPS-140
- Open architecture permits easy integration with third-party systems and hardware
- Supporting ONVIF Protocol, SDK, OpenApi

.

• Features of Main Modules

Module	Features
	• Efficient and comprehensive video security
	• Quick incident search and location, convenient event search, and quick run-through of video
	• Video export as evidence
	 Low bandwidth network adaptability
	Reliable and flexible storage
	Play live video
	 Add devices by: auto search and registration, IP, network segment, domain
	Initialize devices
Video	• Turn scheduled and push notifications on and off
Video	 Manage user permissions and roles for devices and control Assign users to energific roles
	 Assign users to specific roles Set PTZ permissions to user
	 Set P12 permissions to user Block and enable users
	 Import domain user and assign roles
	 Set alarm as: all day, weekday, weekend, custom
	 Prioritize alarm: Low, Medium, High
	 Trigger recordings, snapshots, live video, alarm output, PTZ action, email
	• Manage and integrate: maps, video wall, vehicle block list (arm and disarm), log, real-time
	and historical events.
	 Comprehensive and flexible access management methods
	 Advanced access strategies for sensitive areas
	 Convenient employee badge design and printing
	 Clear step-by-step guidance
Access Control	 Remote personnel registration
	 Automatically lock or unlock doors
	 Keep doors in a remain unlocked status during an emergency
	 Easily count and verify everyone's safety
	 Opening door via Bluetooth and NFC
	 Digitalized visitor management
Visitor	 Visitor registration in advance
	 Pre-defined access permissions and traceable records
	 A Watchlist function along with personalized design and printing of badges
	 Flexible and efficient entrance & exit management
	 Improved parking experience for drivers
Vehicle	• Self-service parking query
	• Flexible billing
	 Intuitive and efficient parking operation analysis and transaction analysis reports
	Efficient vehicle monitoring for quick response
On-Board Monitoring	Reliable archive management
	Customized reports for enhanced operational efficiency
	 Centrally manage various alarm sources
Alarm Detection	Real-time display of all kinds of alarms
	Flexible linkage
	Automatic audio alarms The wides based intelligent enclosed and based and automible disited
Intelligent C. J. S.	• The video-based intelligent analysis dashboard enables flexible and extensible digital
Intelligent Analysis	applications
	Smart commercial analyses
Communication 1	 Manage and configure content for digital signage in an intuitive manner Due installed use serve to use later
Commercial Display	 Pre-installed program templates All programs are grapted visually.
	 All programs are created visually

•

	•
	 Flexible attendance rule-setting
Time & Attendance	 Diverse attendance reports and customizable templates
	 Easy integration with third-party payroll systems
	 Supports employees searching for attendance results and submitting applications for
	correction
	 Quick retrieval of important recordings, long-term backups, and file-level permission
Portable Enforcement	management
	• Automatic detection and addition of portable devices through dock stations, and detailed
	statistical logs for personnel and equipment use
	 Display videos on the wall Video suite suite and esta dula dula dula dula dula dula dula dul
Smart Wall	 Video auto-switch and scheduled playback Alarma and sense the sense wideo will be automatically played in a new year
	• Alarm pop-up on smart wall. The alarm video will be automatically played in a pop-up window on the video wall to patify the apprator.
	window on the video wall to notify the operator
	• Efficient entrance & exit management with access rules for vehicles, integration with ANPR
Parking Lot	cameras, and touch-free, non-stop vehicle authentication to help reduce rush hour congestion
Management	 Improved parking experience with guidance screens and displays to find vacant spaces
	 Inproved parking experience with guidance screens and displays to find vacant spaces Flexible charging options including manual charge and prepayment
	 Convenient information collection with multi-clients (Mobile Client, Web Client, Control
	Client) for uploading files
	 Unified management of cross-service evidence files, including videos, pictures, audios, and
Evidence Management	documents uploading in the daily operation
	• Long-term backup, efficient retrieval: evidence classification, archiving, retrieval, export,
	one-stop management
	 Easily access key cameras without losing the global view
AR	 Quick resource location through simple "Click" and "Filter" actions
	 Efficient process for quick event handling from notification to acknowledgment
	 Design patrol schedules and routes effortlessly using an intuitive e-map interface
	• Security staff check in using access control devices with all data automatically uploaded to
Patrol Management	the software
	 Report anomalies during the patrol to the center via the Mobile Client
	 Trigger alarms instantly if unauthorized individuals attempt to conduct patrol
	Comprehensive patrol reports enable managers to assess performance effectively
	• Identify a wide range of prohibited items timely and accurately, reducing labor costs and
Security Inspection	security threats
	• Simplify centralized management with real-time detection results, alarm information, and
	live view
	 Instant response to emergencies with a click to trigger the emergency automatically or manually.
	 manually Enhanced evacuation experience with cycled broadcast of evacuation messages through IP
	Speakers and remaining doors open along the escape route for quick assembly at muster
Emergency Mustering	points
	 Efficient confirmation of personnel safety status at muster points, including counting and
	verification of everyone's presence and checking the most recent locations of missing
	individuals
	• Manage multi-site systems in one place, providing a unified view of different resources, and
Remote Site	all related events and alarms across sites.
Management (RSM)	• Multi-site solutions in terms of the number of devices, remote sites and concurrent events
-	to be handled by the system
	 Visualized network and device topology and alarm notifications
Maintenance	 Logs are available for event trackback and evidence
wantenance	 Check all health status with one click or according to a preset schedule
	 Clearly see the risks and exceptions

.

Parcel Tracking	 Easy Identification & Tracking of Parcels by linking the data from barcode systems and video systems Tracking through the Conveyor belt systems with smart code reader and conventional cameras Video Evidence Management: support Video Record Export (MP4/AVI), support Scanning
	Record Export by Check Point/Parcel ID/timestamp)
Dock Management	 Real-time analysis loading and unloading rate, quickly locate and playback the processes Vehicle dispatch process: dock reservation, ANPR, LED screen displaying queuing info, speaker for audio broadcast
	 Real-time and visualized display of dock status on the Dock Map Statistics of vehicle operation time, waiting time, etc. by the dashboard
	 Non-contact payment, improve efficiency and upgrade experience
Canteen Consumption	 Diverse consumption mode applicable to different scenarios Unified management enables high efficiency on management of large plant canteens

Software Specification

The following table shows the maximum performance of the SYS (System Management Server). For other detailed data and performance, refer to *Software Requirements and Performance*.

	Features	Maximum Performance
General		l
	Encoding Devices	
	Encoding Devices Supporting ONVIF Protocol	
	Access Control Devices	
	Elevator Control Devices	
	Video Intercom Devices	
	Visitor Terminals	
	Security Control Panels and Panic Alarm Devices	
	IP Speakers	5,000
	Query Terminals	Note: No more than 2,048 encoding
	Guidance Terminals	devices added by ONVIF protocol,
	Parking Lot Screens	1,024 access control devices or
	Entrance/Exit Stations	elevator control devices, 128
	On-Board Devices	security radars, 32 visitor terminals,
	Security Inspection Devices	1,000 dock stations, 128 network
	UVSSs	transmission devices, , 40
	Body Cameras	entrances&exits, 2,048 guidance
	Dock Stations	terminals, 4 UVSSs, 2,048 digital
	Network Transmission Devices	signages, 2,048 interactive flat
	Digital Signage Terminals	panels, 2,048 fire protection devices, 1,000 scanning devices,
	Interactive Flat Panels	256 portable code scanners, and
	Fire Protection Devices	100 payment terminals are allowed
	Decoding Devices	
	BACnet Devices	
	Modbus Devices	
Manageable Resource	Payment Terminals	
	Portable Code Scanners	
	Scanning Devices (including Hikvision smart code	
	readers, Hikvision barcode readers, and third-party	
	scanning devices)	
	Intelligent Analysis Servers	64
	Recording Servers	64
	Streaming Servers	64
	Cameras	Central System: 10,000 With RSM: 100,000
	Alarm Inputs (excluding security control panels and panic alarm devices)	5,000
	Alarm Inputs of Security Control Devices	10,000
	Security Control Partitions (Areas)	2,048
	Alarm Outputs	3,000
	Radar PTZ Cameras	30
	DS-5600 Series Face Recognition Terminals When	32
	Applied with Hikvision Turnstiles	2 000
	ANPR Cameras	3,000 Recommanded: 2,000
	People Counting Cameras	Recommended: 3,000
	Heat Map Cameras	Recommended: 1,024
	Queue Management Cameras	Recommended: 3,000
	Thermal Cameras	Recommended: 20 ⁽¹⁾

This recommended value refers to the number of thermal cameras connected to the system directly. It depends on the maximum performance (data processing and storage) in the situation when the managed thermal cameras uploading temperature data to the system. For thermal cameras connected to the system via NVR, there is no such limit.
 In the Portable Enforcement module, persons performing group intercom via the streaming server of HikCentral Professional simultaneously is 400.

* For high stability and good performance, the following system requirements must be met.

Recommended Hardware Specification

Processor	E-2324G(4Cores/8MB/4T/ 3.1-4.6GHz/65W)		
Memory	1 × 16GB up to 2666 MT/s DDR4 UDIMM		
Storage Controllers	Internal Controllers: SAS_H355		
Drive Bays	1T 7.2K SATA×2		
Power Supplies	Single 450W (Bronze) power supply		
Dimensions	Form Factor: Rack (1U) Chassis Width: 434.00mm (17.08 in) Chassis Depth: 595.63mm (23.45 in) (3.5"HHD) <i>Note:</i> These dimensions do not include: bezel, redundant PSU		
Dimensions with Package	750 mm × 614 mm × 259 mm		
(W × D × H)	(29.53" × 24.17" × 10.2")		
Net Weight	12.2 kg		
Weight with Package	18.5 kg		
Embedded NIC	2 x 1GbE LOM Network Interface Controller (NIC) ports		
Device Access	Front Ports: 1x USB 2.0, 1 x IDRAC micro USB 2.0 management port Rear Ports: 2 x USB 3.0, VGA, serial connector		
Embedded Management	iDRAC9 with Lifecycle Controller iDRAC Direct DRAC RESTful API with Redfish		
Integrations and Connections	Integrations: Microsoft® System Center VMware® vCenter™ BMC Truesight (available from BMC) Red Hat Ansible	Connections: Nagios Core & Nagios XI Micro Focus Operations Manager i (OMi) IBM Tivoli Netcool/OMNIbus	
Operating Systems	Certify XenServer Citrix [®] XenServer [®] Microsoft Windows Server [®] with Hyper-V Red Hat [®] Enterprise Linux Ubuntu Server This model is installed with Microsoft Windows Server [®] 2019 multilingual operating system.	SUSE® Linux Enterprise Server VMware® ESXi
